

Common Questions

9/17/2021

Are my donations still tax-deductible?

Yes! The Mortel HHH Foundation has always been, and remains, a 501c3 charitable organization.

What about my employer's matching gift?

The Mortel HHH Foundation is a 501c3 private foundation in the IRS's classifications, so check with your employer to see if they will still permit your gift to be matched!

What about AmazonSmile?

AmazonSmile only supports public charities and since the consolidated Mortel HHH Foundation is a private foundation, AmazonSmile will no longer contribute to our organization.

Why did you consolidate the two organizations?

Our hope with this consolidation is to ensure we can reach the most children AND adults in Haiti through our programs, both now and long into the future. The consolidation will better serve Haitians of all ages and will make a more efficient use of donated funds.

Are you still recruiting student sponsors or are you focusing more on adult programs now?

The most exciting thing about this consolidation is that we can now reach Haitians throughout the entire life cycle, from preschool to adult. We are expanding our reach with additional programs to cater specifically to adults but will continue to empower the children through quality education and our student sponsorship program.
